

## **SBR CRUMB RUBBER FOR SYNTHETIC TURF INFILL**

**New River Tire Recycling** crumb rubber is produced from 100% recycled tires for beneficial use in synthetic turf fields, landscaping, parks, and playgrounds.

Our crumb rubber is designed to conserve water, reduce maintenance, and provide an environmentally friendly alternative to natural turf.

### **BENEFITS:**

- 100% recycled tires
- Environmentally friendly
- Long lasting
- Player safety
- Extends the field's playability
- Water elimination
- Cost effective too!
