

SLX

Rubber Floor Sealer

Introducing our SLX Sealer, the ultimate solution for keeping your floors looking their best. This ready-to-use sealer is not only effective but also environmentally friendly. SLX is a flexible floor sealer developed specifically for use over rubber floors with our customer needs in mind. No need to dilute our SLX Rubber Floor Sealer.

Sweep area using a dust mop or hard surface vacuum and clean the floor using our CLX Cleaner. Then apply our SLX Sealer using only a microfiber pad or clean mop. Apply 3-4 even coats for an initial coating or 1-2 coats for re-coating. If a semi-gloss appearance is desired simply apply an additional 1-2 coats.

Allow finish to cure for 24 hours before placing any equipment on the floor. Each bottle of SLX covers 2500-3000 sq. ft. with an approximate 30 minute drying time.

1 Gallon (3.785 Liters)
